

SUPPORTNOVA

Corporate Policy Registry -- Official Document

Policy ID	POL-MOB-2026
Policy Title	Mobile Device Warranty, Repair & Replacement Standards 2026
Version	3.1 (Active)
Effective Date	01 January 2026
Review Date	31 December 2026
Approved By	Dr. Alexander Vance -- System Administrator, SupportNova
Department Owner	Hardware QA & Customer Experience
Compliance Ref.	SRS Section 1.2, 1.6, 1.8, 1.10 -- ResponseX Intelligence Framework
Classification	Internal -- Restricted Distribution
Replaces	POL-MOB-2025 v2.4 (Superseded 01 Jan 2026)

- 6. Resolution Pathways & SLA Targets
- 7. Prohibited Actions & Compensation Limits
- 8. AI Governance & Dual-Pipeline Verification
- 9. Escalation Tiers
- 10. Policy Version Control & Audit Trail

1. Purpose & Scope

This policy establishes mandatory standards, procedures, and governance rules that govern all mobile device warranty claims, repair requests, and replacement authorizations processed through the SupportNova Autonomous AI Complaint Intelligence System.

Scope: Applies to all Samsung Galaxy, Apple iPhone, and OnePlus flagship devices purchased through authorized NovaStore channels within 24 months of purchase date. Devices purchased through unauthorized resellers are excluded.

2. Definitions & Terminology

Term	Definition
P1 Critical	Safety hazard posing immediate risk to persons or property. 2-hour SLA.
P2 Elevated	Significant hardware failure affecting primary device functionality. 8-hour SLA.
P3 Standard	Non-critical defects; intermittent faults; cosmetic damage. 24-hour SLA.
P4 Low	Minor inconveniences; software glitches; non-essential features. 48-hour SLA.
Ground Truth	100% deterministic Python validation layer -- zero AI inference involved.
Quarantine	Automated dispatch block applied when human specialist review is required.
Tone Decoupling	Separation of customer emotional tone from actual complaint severity level.
Traceability	Audit-trail linkage between complaint, policy citation, and resolution action.

3. Eligibility Criteria for Warranty Claims

- Device purchased from an authorized NovaStore channel (online portal or physical store).
- Claim submitted within 24 months of confirmed delivery date.
- Customer provides valid order reference number and product serial number.
- Defect is attributable to manufacturing fault, not physical damage or unauthorized modification.
- Device has not been rooted, jailbroken, or had its bootloader unlocked.
- Liquid damage indicators inside the device are not triggered.
- Customer must return defective unit within 7 business days of replacement dispatch.

4. Hardware Defect Classification Matrix

Defect Type	Severity	Priority	SLA	Resolution
Battery Swelling / Thermal Runaway	CRITICAL	P1	2h	Immediate Replacement
Smoke / Spark / Burn Marks	CRITICAL	P1	2h	Emergency Recall + Replacement
Screen OLED Failure (Black/Lines)	HIGH	P2	8h	Replacement
Charging Port Non-Functional	HIGH	P2	8h	Repair / Replacement
Camera Module Failure	MEDIUM	P3	24h	Repair
Speaker / Microphone Fault	MEDIUM	P3	24h	Repair
Minor Cosmetic Defects	LOW	P4	48h	Assessment
Software / App Crashes	LOW	P4	48h	Remote Support

5. Battery Safety & Thermal Incident Protocol

CRITICAL SAFETY PROTOCOL -- Section 5

Battery swelling, overheating above 45 degrees Celsius during standard use, smoke, sparking, or burn marks constitute a P1 Safety Emergency. These cases MUST bypass all standard processing queues and be escalated immediately to the Emergency Response team within 30 minutes.

- Step 1:** Immediately quarantine automated dispatch and flag complaint as P1 Critical.
- Step 2:** Notify Emergency Response team via priority alert within 30 minutes.
- Step 3:** Issue customer advisory to power off device immediately and store safely.
- Step 4:** Dispatch prepaid return courier within 4 hours -- do not ask customer to ship normally.
- Step 5:** Process replacement order within 2 hours of specialist authorization.
- Step 6:** File safety incident report under CAPA-SAFETY-LOG for regulatory compliance.
- Step 7:** Initiate batch quality check on same model/production lot (SRS 1.2 Compliance).

6. Resolution Pathways & SLA Targets

Priority	Response	Resolution	Pathway	Escalation
P1	15 min	2 hours	Emergency + Specialist	System Admin (T6)
P2	1 hour	8 hours	Specialist Review	Senior Specialist
P3	4 hours	24 hours	Standard Queue	Team Lead
P4	8 hours	48 hours	Self-Service / Bot	Support Agent

7. Prohibited Actions & Compensation Limits

- X Direct monetary cash compensation to customer bank accounts (any amount).
- X Compensation exceeding PKR 100,000 without System Administrator authorization.
- X Promising replacements before specialist verification and policy clearance.
- X Disclosing internal policy IDs, ticket IDs, or pipeline scores to customers.
- X Closing a P1 Safety ticket without Emergency Response team sign-off.
- X Applying more than 2 override reclassifications per ticket without admin approval.
- X Citing deprecated or superseded policy versions (pre-2026) in resolution messages.

8. AI Governance & Dual-Pipeline Verification

All complaints processed through SupportNova are subject to mandatory dual-pipeline AI governance as specified in SRS Section 1.2 and 1.10:

Pipeline	Technology	Role	Output
Pipeline 1	Gemini 2.0 Flash (GenAI)	Probabilistic triage, entity extraction, drafting	Category, Urgency, Priority, Draft Response

Pipeline 2	Pure Python -- Zero AI	Deterministic validation against Rule Matrix	Ground-truth override, quarantine decision, trace
Diff Engine	Python Comparison	Field-by-field analysis of P1 vs P2 outputs	Match count, mismatches, critical discrepancy flag

9. Escalation Tiers

Tier	Level	Trigger	Authority
T1	Self-Service Bot	P4 standard queries	Automated response only
T2	Support Agent	P3 standard complaints	Approve up to PKR 5,000
T3	Senior Specialist	P2 elevated; repeat customers	Approve up to PKR 25,000
T4	Team Lead	Policy ambiguity; 3+ repeat cases	Approve up to PKR 50,000
T5	Department Head	Legal threats; media risk	Approve up to PKR 100,000
T6	System Administrator	P1 Safety; cash >PKR 100K; AI jailbreak	Full executive authority -- unlimited

10. Policy Version Control & Audit Trail

Version	Date	Author	Change Summary
v1.0	01 Jan 2024	Policy Team	Initial policy publication
v2.0	01 Jan 2025	Dr. A. Vance	Added AI governance clauses (Sec 8)
v2.4	15 Jun 2025	Dr. A. Vance	Battery safety protocol added (Sec 5)
v3.0	01 Jan 2026	Dr. A. Vance	Complete revision -- SRS alignment
v3.1	15 Mar 2026	Dr. A. Vance	SLA table updated; Tier 6 authority clarified

Current Active Version: v3.1 -- All previous versions are superseded and must not be cited in resolution messages.
